Age/Gender	OP/IP No/UHID
MaxID/Lab ID	Collection Date/Time
Ref Doctor	Reporting Date/Time

Molecular Diagnostics

Test Name	Result	Unit	Bio Ref Interval
------------------	---------------	-------------	-------------------------

Chlamydia Trichomatis Urine/Swab

Real Time PCR

Type of Specimen:	URINE
Results.	Negative

Comment

Interpretation :-

RESULT	REMARKS
Positive	Sample provided contains C.trachomatis DNA.Viability and/or infectivity of the organism cannot be inferred since target DNA may persist in the absence of viable organisms.
Indeterminate	Results are inconclusive for C. trachomatis DNA.Repeat testing on a new specimen from the patient or additional testing by an alternate test procedure is recommended.
Negative	Specimen is presumptive negative for C. trachomatis. A negative result does not preclude C.trachomatis infection because results depend on adequate specimen collection, absence of inhibitors,and sufficient DNA to be detected.

Note: Test conducted on urine, endocervical , conjunctival & urethral swabs

Comments

Chlamydia are gram-negative, non-motile bacteria that are known to cause Cervicitis, Pelvic inflammatory disease (PID), Infant conjunctivitis, Infant pneumonia, Urethritis, Epididymitis and Proctitis. *C. trachomatis* is also the most frequent cause of Non-gonococcal urethritis (NGU) in men (approximately 25-55% of cases). Among women, the consequences of chlamydial infections are severe if left untreated. Since approximately half of these infections are asymptomatic, babies born to chlamydia-infected mothers are at high risk of developing Inclusion conjunctivitis and Pneumonia.

Kindly correlate with clinical findings

Conditions of Reporting: 1. The tests are carried out in the lab with the presumption that the specimen belongs to the patient name as identified in the bill/test request form. 2. The test results relate specifically to the sample received in the lab and are presumed to have been generated and transported per specific instructions given by the physicians/laboratory. 3. The reported results are for the information and interpretation by the referring doctor only. 4. Some tests are referred to other laboratories to provide a wider test menu to the customer. 5. Max Healthcare shall in no event be liable for accidental damages loss, or destruction of specimen which is not attributable to any direct and mala fide act or omission of Max Healthcare or its employees. Liability of Max Healthcare for deficiency of services, or other errors and omissions shall be limited to fee paid by the patient for the relevant laboratory services.
