Max ID/Mobile	Collection Date/Time
Lab ID	Receiving Date
Ref Doctor	Reporting Date
Passport No.	

Clinical Biochemistry Special

Test Name	Result	Unit	Bio Ref Interval
-----------	--------	------	------------------

Cystic Fibrosis NewBorn Screen*

IRT, Neonatal FEIA	17.10	ng/mL	< 70.0
-----------------------	-------	-------	--------

Comment Interpretation:

New Born Screening is aimed at early identification of conditions or diseases for which timely intervention can result in elimination or reduction of morbidity, mortality or disabilities

Immunoreactive Trypsinogen (IRT) is increased in neonates with Cystic Fibrosis (CF). Values decrease with disease progression. Diagnosis of CF is to be confirmed by Repeat test 1 to 3 weeks later or Cystic Fibrosis Mutation Detection genetic test.

Kindly correlate with clinical findings

*** End Of Report ***

Dr. Poonam. S. Das, M.D.
Principal Director-
Max Lab & Blood Bank Services

Dr. Dilip Kumar M.D.
Associate Director &
Manager Quality

Dr. Nitin Dayal, M.D.
Principal Consultant & Head,
Haematopathology

Conditions of Reporting: 1. The tests are carried out in the lab with the presumption that the specimen belongs to the patient name as identified in the bill/test request form. 2. The test results relate specifically to the sample received in the lab and are presumed to have been generated and transported per specific instructions given by the physicians/laboratory. 3. The reported results are for the information and interpretation by the referring doctor only. 4. Some tests are referred to other laboratories to provide a wider test menu to the customer. 5. Max Healthcare shall in no event be liable for accidental damages loss, or destruction of specimen which is not attributable to any direct and mala fide act or omission of Max Healthcare or its employees. Liability of Max Healthcare for deficiency of services, or other errors and omissions shall be limited to fee paid by the patient for the relevant laboratory services.
