

### Laboratory Investigation Report

Patient Name	:	Centre	:
Age/Gender	:	OP/IP No/UHID	:
MaxID/Lab ID	:	Collection Date/Time	:
Ref Doctor	:	Reporting Date/Time	:

#### Hematology Special

#### Max Autoimmune Myositis Profile

SIN No: B2B2691680

Test Name	Result	Unit	Bio Ref Interval
-----------	--------	------	------------------

#### ANA By Immunofluorescence, Serum

Anti Nuclear Antibodies	Positive	Negative
Immunofluorescence		
Primary Dilution	1:40	
Primary Intensity on IF	2+	
Nuclear Pattern	Speckled	
Cytoplasmic Pattern	Negative	
Mitotic Pattern	Negative	
End Point Titre	1:320	
Advise :	ANA LIA	

#### Interpretation

Anti Nuclear Antibody IFA, HEP2000, Serum Immunofluorescence  
(Syn: Anti-Nuclear Antibody)

ANA immunofluorescence is the gold standard test for screening for autoimmune antibodies and has higher sensitivity as compared to ANA ELISA.

ANA positivity may be seen in - certain viral infections (Hepatitis C, Parvovirus and many other), bacterial infections (Tuberculosis), parasitic infection (schistosomiasis), certain malignancies and medications. ANA Immunofluorescence results need to be corroborated with clinical features and other laboratory findings for definitive evidence of auto-immune disorder.

#### Advise: -

- A repeat ANA testing is recommended after 12 weeks after an acute episode of infection.
- ANA LIA should be added in cases with positive ANA Immunofluorescence result to know which extractable nuclear antigen is present in the patients, which helps in classifying patients for specific autoimmune disorder.

Kindly correlate with clinical findings

**Conditions of Reporting:** 1. The tests are carried out in the lab with the presumption that the specimen belongs to the patient name as identified in the bill/test request form. 2. The test results relate specifically to the sample received in the lab and are presumed to have been generated and transported per specific instructions given by the physicians/laboratory. 3. The reported results are for the information and interpretation by the referring doctor only. 4. Some tests are referred to other laboratories to provide a wider test menu to the customer. 5. Max Healthcare shall in no event be liable for accidental damages loss, or destruction of specimen which is not attributable to any direct and mala fide act or omission of Max Healthcare or its employees. Liability of Max Healthcare for deficiency of services, or other errors and omissions shall be limited to fee paid by the patient for the relevant laboratory services.
